PACKAGING
BAGCRAFT
A NOVOLEX BRAND

NOVOLEX's Bagcraft® Packaging brand offers the industry's broadest range of paper based specialty value-added food packaging products including specialty bags, sandwich wraps, and other specialty sheet and roll products.

Bagcraft® Packaging products are used across a wide range of foodservice, restaurant, supermarket, convenience store, bakery, food processor and industrial packaging applications. Bagcraft® is also a leader in sustainability innovation with its EcoCraft® brand of flexible foodservice packaging. With a legacy of superior quality and product innovation that spans over six decades, Bagcraft® is the consultant of choice to drive your business growth and brand differentiation with custom packaging solutions.

Sustainability

A continuous journey of improvement

Novolex is a leader in sustainable paper and plastic flexible packaging with a broad portfolio of solutions focused on source reduction, energy and water conservation, and end of life product planning and management.

Some of the Novolex™ sustainability solutions we bring to our customers include: recycled content plastic and paper products, compostable plastic and paper products, renewable substrates, Novolex's Bag-2-Bag® plastic bag and film recycling program, lower impact substrates such as our EcoCraft® line of paper products, and other industry leading innovations that minimize raw materials while maximizing performance.

PERFORMANCE FEATURES

- Multiple-bake pan liner significantly reduces your costs while reducing raw material waste
- Made from unbleached, grease proof paper with a chromium-free, multi-bake release
- FDA, Kosher and Pareve certified
- Packaged in an easy-to-open carton for convenient, single-sheet dispensing

Artisan Foil Garlic Bread Bags

PERFORMANCE FEATURES

- Fresh, eye catching “Artisan” design improves impulse sales
- Garlic bread bag is lined with natural, unbleached paper

Item #	UPC #	Description	Dimensions	Case Pack	Case Weight	Case Cube	Cases/ Pallet	Pallet TI HI
300860	10072181008608	EcoCraft® Foil Garlic Bread Bag NK Liner Artisan	4 ½ x 3 x 20	500	18#	0.84	56	8 x 7
300861	10072181008615	EcoCraft® Foil Garlic LG Bread Bag NK Liner Artisan	5 ¼ x 3 ¼ x 20	500	20#	0.95	42	8 x 7

Artisan Dubl-Panel® Bread Bags

PERFORMANCE FEATURES

- Reduce packaging waste and cost with our “right size” bread bags
- Variety of sizes in the Artisan print design provide a matching, upscale look
- Dubl-Panel® bag provides clear visibility that energizes impulse sales

Item #	UPC #	Description	Dimensions	Case Pack	Case Weight	Case Cube	Cases/ Pallet	Pallet TI HI
300891	10072181008912	EcoCraft® Dubl-Panel® Bread Bag Artisan	3 ½ x 2 x 14	500	9#	0.82	50	10 x 5

Interfolded Soy Wax Scale Sheets - Regular Weight

PERFORMANCE FEATURES

- Treated with a soy wax blend that reduces the reliance on petroleum
- Easy-to-grab sheets in a convenient, pop-up box dispenser
- Multiple uses: food wrap, scale sheet, pick up sheet and basket liner

Item #	UPC #	Description	Dimensions	Case Pack	Case Weight	Case Cube	Cases/ Pallet	Pallet TI HI
010001	10787074007179	EcoCraft® Interfolded Soy Wax Tissue NK6T Natural	6 x 10 ¾	10@1M	21#	0.74	54	9 x 6
016008	10787074007186	EcoCraft® Interfolded Dry Wax Deli Paper NK8 Natural	8 x 10 ¾	12@500	23#	0.88	45	9 x 5
016010	10787074007193	EcoCraft® Interfolded Dry Wax Deli Paper NK10 Natural	10 x 10 ¾	12@500	29#	1.10	27	9 x 3
016012	10787074007209	EcoCraft® Interfolded Dry Wax Deli Paper NK12 Natural	12 x 10 ¾	12@500	34#	1.29	48	12 x 4
016015	10787074007339	EcoCraft® Interfolded Dry Wax Deli Paper NK15 Natural	15 x 10 ¾	12@500	41#	1.58	36	12 x 3

Freezer Paper

PERFORMANCE FEATURES

- Improved sustainability due to less paper and poly material needed to meet functionality requirements offering an innovative product design
- Less reliance on petroleum based poly resin which is non-renewable
- Reduced paper fiber used due to a 80% recycled sheet with 40% post-consumer fiber content
- Soft and pliable freezer sheet with improved feel and acceptance with operations
- Improved barrier and "Moisture Vapor Transmission Rate" due to natural filler in poly blend

Item #	UPC #	Description	Dimensions	Case Pack	Case Weight	Case Cube	Cases/ Pallet	Pallet TI HI
184018	10787074010858	EcoCraft® Freezer Roll Paper/Poly Regular Natural	18" x 1000'	1 Roll	18#	0.95	40	20 x 2
184024	10787074010865	EcoCraft® Freezer Roll Paper/Poly Regular Natural	24" x 1000'	1 Roll	24#	1.25	20	20 x 1

EcoCraft® Theater Style Popcorn Bag

PERFORMANCE FEATURES

- Perfect for theatres, stadiums, theme parks and schools
- Colorful vintage stock print designs
- Educational sustainability message printed on the gusset
- Grease proof, two-ply paper keeps the butter in the bag
- Economical and sustainable alternative to cartons and tubs

Item #	UPC #	Description	Dimensions	Case Pack	Case Weight	Case Cube	Cases/ Pallet	Pallet TI HI
300611	10072181006116	EcoCraft® Theater Popcorn Bag 46oz Red Stripe	4 ¼ x 2 ½ x 8 ¼	1M	21#	1.34	32	8 x 4
300612	10072181006123	EcoCraft® Theater Popcorn Bag 85oz Blue Stripe	5 ½ x 3 ¼ x 8 ½	500	15#	0.86	48	12 x 4
300613	10072181006130	EcoCraft® Theater Popcorn Bag 130oz Green Stripe	7 ½ x 3 ½ x 9 ¼	500	20#	1.22	30	10 x 3
300614	10072181006147	EcoCraft® Theater Popcorn Bag 170oz Black Stripe	7 ½ x 3 ½ x 11 ¾	250	12#	0.78	48	12 x 4

EcoCraft® Coffee Bags

PERFORMANCE FEATURES

- Paper/Paper construction is compostable with tin tie removed
- Grease proof paper liner prevents stains
- Easy to seal and reseal with tin tie closure system
- Perfect for high volume whole bean and ground coffee users

Item #	UPC #	Description	Dimensions	Case Pack	Case Weight	Case Cube	Cases/ Pallet	Pallet TI HI
300947	10072181009476	EcoCraft® Bakery & Coffee Bag Paper Lined Tin Ties 1lb Natural	4 ¼ x 2 ½ x 9 ¾	1M	34#	2.60	24	6 x 3

EcoCraft® Java Jacket® Sleeves

PERFORMANCE FEATURES

- Superior grip feature provides safe portability
- Heat activated glue bonds the jacket to the cup for added slip resistance
- Our innovative design makes it simple to pop open the jacket sleeve with one hand which improves operator speed

Item #	UPC #	Description	Dimensions	Case Pack	Case Weight	Case Cube	Cases/ Pallet	Pallet TI HI
300904	10072181009049	EcoCraft® Java Jacket® Sleeve Unprinted	4 ¾ x 2 ½ Fits 12-24oz	1300	21#	1.60	40	8 x 5
300905	10072181009056	EcoCraft® Java Jacket® Sleeve Artisan Cup Design	4 ¾ x 2 ½ Fits 12-24oz	1300	21#	1.60	40	8 x 5

Sustainability Glossary

BACKYARD COMPOSTING

The controlled decomposition of organic food waste and yard trimmings in urban, suburban and rural backyards, which produces a nutrient-rich top soil. Composting is considered waste source reduction, not recycling, because the composted materials never enter the municipal waste stream. [epa.gov](https://www.epa.gov)

BIODEGRADABLE

A material that will decompose into naturally occurring, harmless components over time with exposure to air, sunlight and/or moisture.

BIOMASS

Organic, non-fossil material that is available on a renewable basis. Biomass includes all biological organisms and their metabolic by-products, including forest and mill residues, agricultural crops and waste, wood and wood waste, animal waste, aquatic plants, and municipal and industrial waste.
by Nathan Shedroff

BIOPLASTIC

Bioplastics are a form of plastics derived from renewable biomass sources, such as wood, vegetable oil, corn starch, pea starch or microbiota, rather than traditional plastic, which are derived from petroleum. See Nature Works and Innovia for examples.

CARBON FOOTPRINT

A measure of the impact human activities have on the environment in terms of the amount of green house gases produced, measured in units of carbon dioxide. It is meant to be a useful measure for individuals and organizations to conceptualize their personal (or organizational) impact in contributing to global warming.

CLOSE-LOOP RECYCLING

The practice of collecting used materials from customers for remanufacture by the same firm or industry group. Example: Interface Carpet's Flor product line or Patagonia's Common Threads Garment Recycling.

COMPOSTABLE

A material that biodegrades substantially under composting conditions into carbon dioxide, methane, water and compost biomass. Compostable is a subset of biodegradable. The size of the material is a factor in determining compostability because it affects the rate of decomposition. A product that is "compostable" is one that can be placed into a composition of decaying biodegradable materials, and eventually turns into a nutrient-rich material.

CRADLE TO GRAVE

The full life cycle assessment (LCA) of a product or process, from the extraction of raw materials, through manufacturing and use, to final disposal. This assessment examines the product's net environmental burden, including the consumption of raw materials and energy, emissions to air and water, and solid waste generation. Cradle to Grave can also refer to the responsibility a company takes for the entire life cycle of a product, service or program, from design to disposal or termination.

ECO-EFFICIENCY

An effort to achieve the best possible efficiency throughout the creation, use and disposal of a product or service. Eco-Efficiency simply means "doing more with less." It is not a synonym for sustainability as it considers only the environmental and economic aspects of the product without regard for the social implications.
by Nathan Shedroff

ENVIRONMENTAL IMPACT

Any change to the environment, good or bad, that wholly or partially results from industrial/manufacturing activities, products, services, land usage or natural events. Energy consumption, greenhouse gas (CO₂-eq) production, toxicity and natural resources depletion are some of the key environmental impact areas.

END-OF-LIFE

The terminus of a product's useful life and thus the beginning point for its reuse, recycling or permanent disposal.

GREENWASHING

A term used to describe the act of misleading consumers regarding the environmental practices of a company or the environmental benefits of a product or service.

INDUSTRIAL COMPOSTING

Similar to backyard composting but requiring industrial-scale processes, such as higher heats and more controlled conditions, which allow for a greater variety of inputs, including: meat, bones, fats, bioplastics and food service paper-products.

LIFE CYCLE ASSESSMENT (LCA)

A set of procedures put in place to assess the environmental aspects and potential impact directly associated with a product, process or service system throughout its life cycle. Includes:

- 1) Compiling an inventory of relevant energy and material inputs and environmental releases
- 2) Evaluating their potential environmental impacts associated with the identified inputs and releases
- 3) Interpreting the results to help you make more informed decisions. [epa.gov](https://www.epa.gov)

MOBIUS LOOP

The common nickname for the recycling symbol. The three arrows represent the main steps in the process.
Sustainable Graphic Design, Wiley Publishing, 2009

POST-CONSUMER WASTE (PCW)

Materials or finished products, particularly paper and plastic, that have served their intended use and have been diverted or recovered from the waste stream. Post-consumer fiber materials include recyclables collected in commercial and residential recycling programs, such as office paper, cardboard, newsprint and packaging materials. Recovered office paper waste makes up the majority of post-consumer fiber content used in recycled copy and printing papers. [recycledproducts.org](https://www.recycledproducts.org)

RECYCLABLE

As defined by the EPA, a product or package that can be collected, separated or otherwise recovered from the solid waste stream for reuse. "Recyclable" is one of the few sustainability terms formally enforced by the FTC on product packaging and advertising. [epa.gov](https://www.epa.gov)

RECYCLED CONTENT

The proportion, by mass, of pre- and post-consumer recycled material in a product or packaging. Some companies count only post-consumer content as recycled. www.csa.ca

RENEWABLE RESOURCE

A resource that is replenished at a rate comparable or faster than its rate of consumption. Therefore, the resource will continue to be available for future generations.

SUSTAINABILITY

Meeting the economic, ecological and social needs of the day without impairing the chances or development of future generations. (UN-Conference, Rio de Janeiro, 1992)

SUSTAINABLE FOREST MANAGEMENT

The stewardship and use of forests and forest land in a way and at a rate that maintains their biodiversity, productivity, regeneration capacity, vitality and their potential to fulfill now and in the future relevant ecological, economic and social functions at local, national and global levels, and does not cause damage to other ecosystems.

TRANSPARENCY

An organization's disclosure of their environmental, economic and social impacts in an effort to assure all players are working toward long-term sustainability goals. Corporate Social Responsibility (CSR) reports are often the delivery mechanism.

TRIPLE BOTTOM LINE

An expanded baseline for measuring performance, adding social and environmental dimensions to the traditional monetary benchmark. Triple bottom line, or TBL, is often expressed through examples: People, Planet, Profit; or Ecology, Economy, Equality. esd.rgs.org

Locations and Brands

Sustainability: A continuous journey of improvement

Novolex is a leader in sustainable paper and plastic flexible packaging with a broad portfolio of solutions focused on source reduction, energy and water conservation, and end of life product planning and management.

Some of the Novolex™ sustainability solutions we bring to our customers include: recycled content plastic and paper products, compostable plastic and paper products, renewable substrates, Novolex's Bag-2-Bag® plastic bag and film recycling program, lower impact substrates such as our EcoCraft® line of paper products, and other industry leading innovations that minimize raw materials while maximizing performance.

©July 2016 Novolex™. Learn more about the Novolex™ family of brands at novolex.com. Novolex™ is a member of the Sustainable Packaging Coalition.
