Packaging Choice and Sustainability

Novolex’s™ De Luxe® Packaging brand, with over 60 years of experience our mission is to provide our current customer base and future customers a diverse range of paper and non-paper product lines and capabilities.

De Luxe’s® products currently have a strong foothold in foodservice, dairy, confectionery, industrial and medical packaging. Our advanced paper conversion capability includes waxing, foil, lamination, pinch bottom bags and industrial packaging. Additionally our non-paper manufacturing and converting capabilities include multi-layer laminations; composite coating; lamination; and unsupported aluminum foil processing and other capabilities.

Sustainability

A continuous journey of improvement

Novolex is a leader in sustainable paper and plastic flexible packaging with a broad portfolio of solutions focused on source reduction, energy and water conservation, and end of life product planning and management.

Some of the Novolex™ sustainability solutions we bring to our customers include: recycled content plastic and paper products, compostable plastic and paper products, renewable substrates, Novolex’s Bag-2-Bag® plastic bag and film recycling program, lower impact substrates such as our EcoCraft® line of paper products, and other industry leading innovations that minimize raw materials while maximizing performance.

Pan Liners

- 4 Grease Proof
- 4 Baking Liners
- 5 Bake ‘N’ Reuse™
- 5 Parchment

Bakery Cups, Tissue & Doilies

- 6 Tulip Cups
- 7 Baking Cups
- 7 Wax Bakery Tissue
- 7 Doilies

Sandwich Wraps & Basket Liners

- 8 Dry Wax
- 9 Grease Resistant
- 9 Napkin Tissue Liner
- 9 I-Rap® Insulated
- 10 Dubl Shield® Insulated
- 10 Foil Insulated

Scale, Patty & Steak Paper 11

Butcher & Freezer Paper 12

Waxed Rolls 13

Dubl Shield®

Insulated Sandwich Wraps

Performance Features

- High-performance wrap for a wide range of demanding applications
- Triangle shaped design creates insulating air pockets keeping food hot and fresh longer than standard wraps
- Excellent moisture and grease resistance
- Superior heat retention keeps food hot longer than standard one and two ply paper wraps
- Innovative functionality keeps different varieties of bread moist or crisp depending on which side of the wrap contacts the food

Item #	UPC #	Description	Dimensions	Case Pack	Case Weight	Case Cube	Cases/Pallet

Packaging Materials Defined

Tissue

An untreated, lightweight tissue sheet with wet strength used for wrapping hot dogs, cones and foods with low moisture or grease content. Improve the “ease of eating” qualities of burgers by wrapping half the burger in our tissue wrap, then wrap the whole burger in a grease resistant, barrier wax, I-Rap®, insulated paper or foil insulated wrap for superior functionality and food presentation.

Dry Wax

Wax is driven into the paper fibers to produce a material that improves wet strength and moisture resistance. The paper provides good moisture resistance and moderate grease resistance. Our dry wax material is an affordable option for basic deli food wrap or bag applications.

Dubl Wax®

We use two different technologies to create Dubl Wax® paper. Our bags are coated on one side with heavy wax and on the other side with dry wax, which provides a strong moisture and moderate oxygen barrier to keep baked goods fresh longer. Our Dubl Wax® deli papers are aggressively infused with wax to provide a smooth uniform high-performance moisture barrier.

Grease Resistant

A grease resistant coating is applied to this paper to decrease grease penetration and staining. The paper creates a whiter, more opaque printing surface for custom logos or designs compared to dry wax. The paper is very breathable, which keeps wrapped or bagged sandwiches fresher and less soggy by letting steam and moisture escape. This material offers an affordable and functional solution for a variety of food-wrap and single serve bag applications.

I-Rap®

A two-layer insulated paper wrap that combines a layer of grease resistant paper and a layer of absorbent paper bonded together with a honeycomb adhesive design to create air pockets, which provide improved insulation, heat retention and longer holding times. I-Rap® provides heat retention for hot food applications without a wax, foil or poly barrier. The two-ply paper wrap is biodegradable and commercially compostable. Our I-Rap® insulated paper allows moisture and steam to escape naturally, which keeps breads from getting soggy.

Dubl Shield®

Our innovative insulated Dubl-Shield® wrap has a highly functional grease and moisture barrier, but will allow moisture to escape, which keeps your bread or bun from getting soggy and losing freshness. The wrap has superior graphic printability on the flat grease resistant outer layer. Improved sustainable design offers an alternative to foil and poly insulated wraps and it's certified compostable by Cedar Grove, which gives it a clear end of life advantage. Dubl Shield® can be printed on the grease resistant layer with one to four colors and can be produced with tinted adhesive to showcase a message or graphics on the inside of the wrap. Our proprietary triangle design air pockets help keep food hot during the average seven minute holding time, before consumption.

Foil Insulated

Made of foil and paper laminated together to form a multi-functional material for a wide variety of foodservice applications. We laminate the two layers together with a honeycomb-shaped adhesive design. This design creates insulating air pockets between the layers, which improve heat retention and increase holding times. Honeycomb foil insulated wraps and bags provide the best overall heat retention, moisture/grease resistance, holding times, dead-fold and product appearance. De Luxe® was the first company to manufacture this foil insulated wrap with the honeycomb design, and we continue to be the industry leader in flexible sandwich packaging innovation.

Custom Converting & Printing Capabilities

De Luxe® offers the broadest range of specialty bag, sheet and roll converting capabilities in the flexible foodservice packaging industry. We manufacture high-quality custom packages on 148 different production lines to provide a wide variety of custom package and print designs. With our efficient, superior F&K presses, we can deliver state-of-the-art graphics capabilities that help differentiate your products on the shelf and on the go. Our long-term commitment to innovation and practical solutions enables us to expertly consult with you on packaging design, process graphics and rigid packaging replacements.

Please review the information we need before you request a quote for a custom product

Provide the individual bag, sheet or roll size

- Bag (width, gusset, length)
- Sheet (width and length)
- Roll (roll width and length or outer diameter)

Initial order quantity needed and the annual volume (units or cases)

Name of printed design or logo

Basis weight of paper if known

Type of paper or combination of materials (foil, bio-film or glassine)

Need a film window?

- Provide an explanation of the proposed window die or panel location on the package

Number of printed colors (provide PMS numbers)

Product application (what will the package be used for?)

Case pack sizes

Shipping/distribution information

How to measure a bag for quotes and production:

- Measure the face of the bag (width)
- Measure the gusset of the bag (side width)
- Measure the length of the bag (not including lip)

If you have a specific question about our custom or graphics capabilities, please call 800-621-8468, ext. 8012.

Natural Advantages of EcoCraft®

- Made with FDA food-grade, 100% unbleached, chlorine-free paper
- Packed in 100% recycled paperboard inner-carton and tray dispenser packaging to reduce raw-material waste
- Soy-blended dry wax on interfolded sheets reduce reliance on petroleum wax
- New dispenser carton and tray design includes printed facts and information about the sustainability benefits of EcoCraft®
- EcoCraft® products, on average, contain 20% pre-consumer waste fiber
- Multiple EcoCraft® products are third-party certified compostable
- Reduces your carbon footprint by purchasing form-fitting, “right size,” flexible packaging with high case counts and small case-cube size
- An experienced national network of sales representatives that can help advise your business on ways to improve your sustainable packaging design

We believe in the continuous “Triple Bottom Line” approach of sustainable packaging design improvement:

Social Responsibility – good for the people

Ecological Responsibility – good for the planet

Economic Responsibility – affordable choices

With our EcoCraft® brand, we were the first company to offer a full stock line of unbleached, sustainable foodservice packaging in North America. We believe sustainability is an ongoing journey of continuous improvement and evolution. This approach propels us to constantly enhance our sustainable practices and products. **This commitment to affordability and innovation has allowed Novolex™ to create the most recognized brand of sustainable flexible packaging available in the industry.**

*Environmental impact estimates were made using the Environmental Paper Network Paper Calculator Version 3.2. For more information visit www.papercalculator.org.

paper fiber*

Our EcoCraft® Journey

Novolex™ is committed to the protection of the earth through recycling and promotion of sustainable products. We are proud to be a member of the following organizations:

Forest Stewardship Council® (FSC)

The FSC® promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests. The unique role of the FSC® is to bring together people, organizations and businesses to develop consensus-based solutions that promote responsible stewardship of the world's forests.

Sustainable Packaging Coalition® (SPC)

The Sustainable Packaging Coalition® (SPC) is an industry working group dedicated to a more robust environmental vision for packaging. Through strong member support, an informed and science-based approach, supply chain collaborations and continuous outreach, we endeavor to build packaging systems that encourage economic prosperity and a sustainable flow of materials.

The SPC is a project of GreenBlue®, a nonprofit that equips business with the science and resources to make products more sustainable.

SCS Global Services (SCS)

SCS Global Services (SCS) has been providing global leadership in third-party environmental and sustainability certification, auditing, testing, and standards development for nearly 30 years. SCS programs span a wide cross-section of industries, recognizing achievements in green building, product manufacturing, food and agriculture, forestry, retail, and more. They are accredited to provide services under a wide range of nationally and internationally recognized certification programs. Consistent with their mission, SCS is a chartered benefit corporation and Certified B Corp™, reflecting their commitment to socially and environmentally responsible business practices.

SCS is respected throughout the world for its integrity, scientific rigor and professionalism.
